Newsletter No 5

Date 14/9/2018

That all important **Planning Meeting** is on this Wednesday **19th of this month** and we would still love your ideas for future field trips and outings. You can still send in your suggestions via the Facebook Page or come-along yourself to Delvine Hall at **7.30pm** and deliver it in person. You will need to have details such as distance, appropriate time of year, cost of entry and overnight accomodation etc. These field trips are vitally important to the Club and its Membership and fresh ideas are encouraged. **Committee Members are reminded the Committee meeting will begin at 6pm before the Planning Meeting.**

Message from Faye our Secretary

A few members have renewed this year without completing the Membership Form which is necessary. The form can be downloaded from our Web-Page, completed and hand to Faye at the next meeting. Thanks. Here is a link to our Web-Page:

<http://www.egpsinc.org>

From the Editor

I will be looking for articles of interest to expand this Newsletter so if you have any suggestions please email them to me at peterbradley@netspace.net.au This can include Welfare Messages to members such as Pip who I spoke to again last night and it appears will be transferred to Bairnsdale Rehab today if a bed is available down here. Let us show all our members we care for them when they are in need a bit of love.

Hate to ask but is Smart Phone Photography our Future? Smart Phones on a worldwide basis are now more popular than our wonderful and expensive camera gear and there is little doubt they perform very well as cameras. Some professionals believe they do even better in some circumstances. Check out this vidoe by double clicking on this hot link below.
